

AI in daily life: From Smart Speakers to Self- Driving Dreams

Intermediate Level

tuSpeaking

AI in Daily Life

English for the World
We Live In

✧ OBJECTIVES

- **By the end of the lesson, students will be able to:**
 1. Understand and use vocabulary related to Artificial Intelligence in daily life.
 2. Practice grammar structures to discuss current and future uses of AI.
 3. Express opinions and give examples about the role of AI in society.

WARM-UP

- **Questions to engage students:**

1. Do you use voice assistants like Alexa, Siri, or Google Assistant?
2. What is the most futuristic AI technology you've heard about?
3. Do you think AI will make our lives easier or more complicated? Why?

INTRODUCTION

- AI is already part of our everyday lives. From **smart speakers** that play music on command, to **recommendation systems** that suggest movies, to **self-driving cars** that promise safer roads, AI is shaping the way we live, work, and communicate.
- Today, we'll explore how AI influences our lives and learn the language to describe it.

VOCABULARY & MEANINGS

1. **Artificial Intelligence (AI):** The ability of a machine to think and learn.
2. **Smart speaker:** A device with a voice assistant.
3. **Algorithm:** A set of rules a computer follows to solve problems.
4. **Self-driving car:** A car that drives itself using AI.
5. **Automation:** Machines doing tasks without human help.

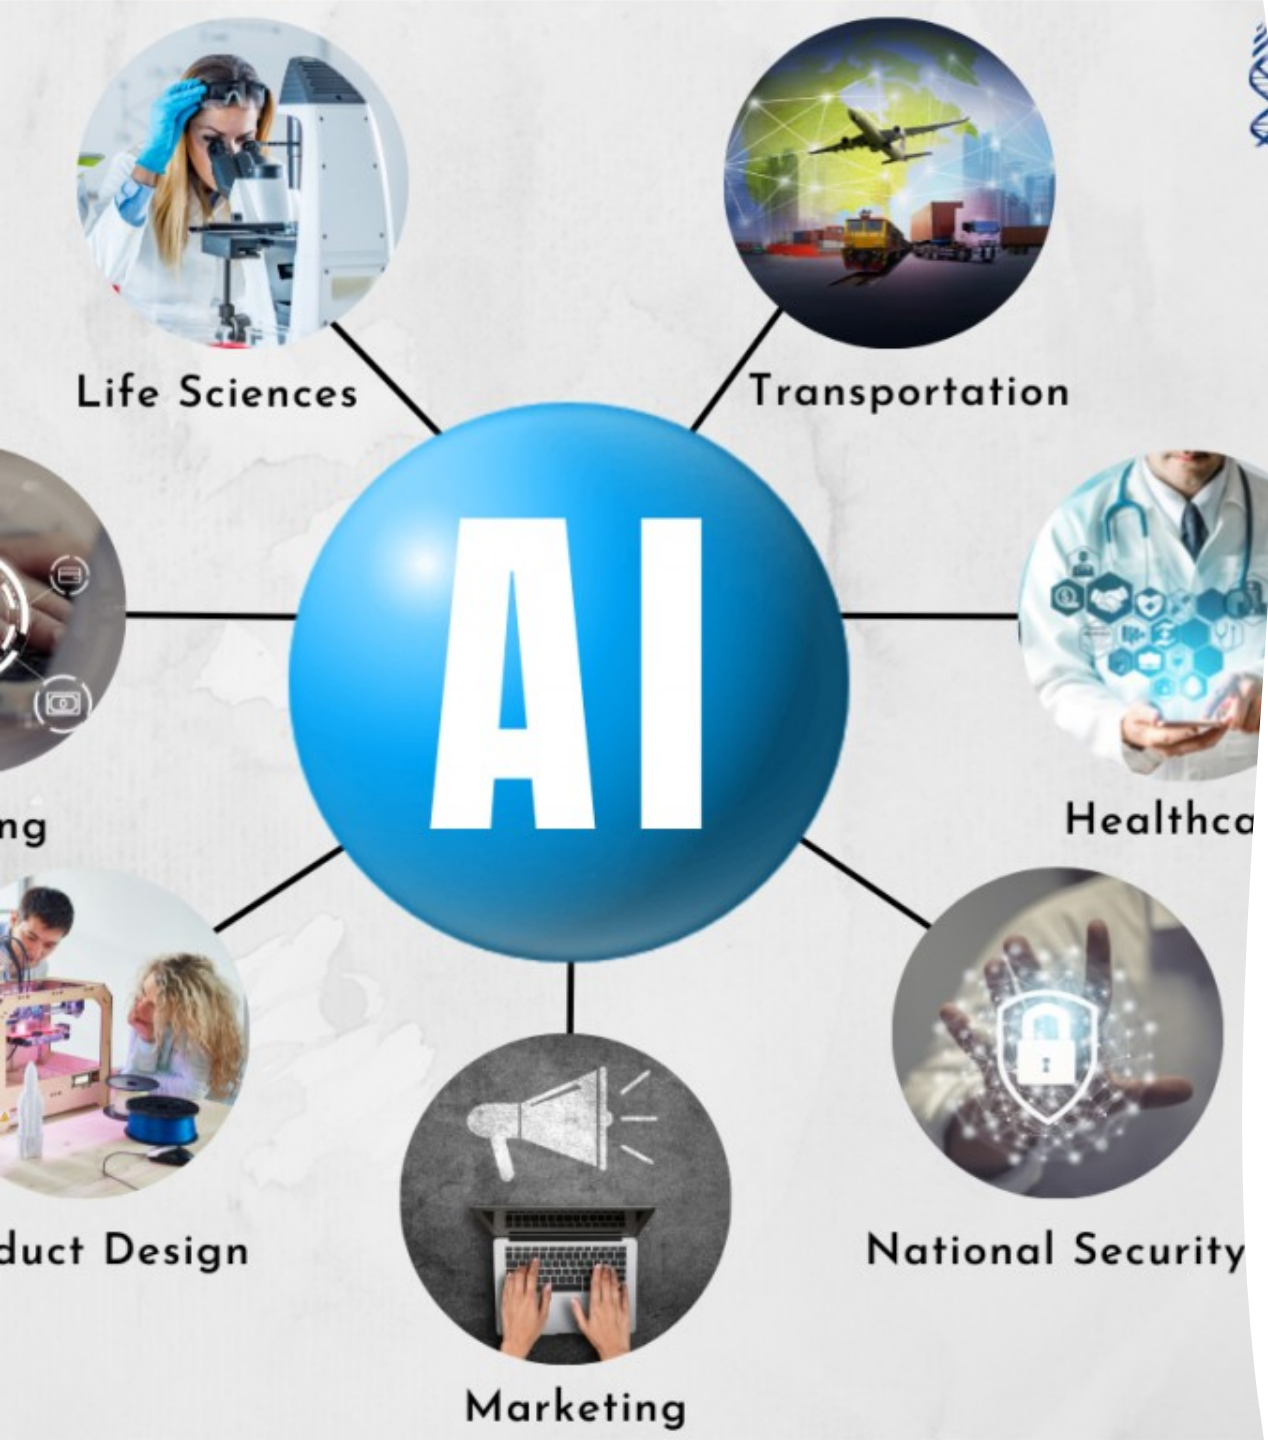

6. **Voice recognition:** Technology that understands spoken words.
7. **Machine learning:** AI systems that improve with experience.
8. **Chatbot:** A program that talks to people online.
9. **Data:** Information computers use to learn and make decisions.
10. **Innovation:** A new idea, method, or technology.

VOCABULARY EXERCISE

Match the word to the definition: Select the words from the given list. (**Smart speaker - Artificial Intelligence - Chatbot - Self-driving car - Voice recognition**)

1. _____ A program that talks to people online.
2. _____ Technology that understands spoken words.
3. _____ A device with a voice assistant.
4. _____ A car that drives itself using AI.
5. _____ The ability of a machine to think and learn.

VOCABULARY EXERCISE - ANSWERS

Match the word to the definition: Select the words from the given list. (**Smart speaker - Artificial Intelligence - Chatbot - Self-driving car - Voice recognition**)

1. **Chatbot** → A program that talks to people online.
2. **Voice recognition** → Technology that understands spoken words.
3. **Smart speaker** → A device with a voice assistant.
4. **Self-driving car** → A car that drives itself using AI.
5. **Artificial Intelligence** → The ability of a machine to think and learn.

GRAMMAR FOCUS

Topic: The Future with “**will**” and “**going to**”

Explanation:

- We often talk about AI in terms of **predictions and plans**.
- **Will** is used for predictions or spontaneous decisions.
- **Going to** is used for intentions or plans already decided.

GRAMMAR EXERCISE

- Complete with **will** or **going to**:
 1. In 20 years, most cars _____ drive themselves.
 2. I _____ try an AI chatbot this week.
 3. People _____ use robots to help with housework.
 4. My school _____ start using AI tools soon.
 5. I think AI _____ replace many jobs.

GRAMMAR EXERCISE - ANSWERS

- Complete with **will** or **going to**:
 1. In 20 years, most cars **will** drive themselves.
 2. I am **going to** try an AI chatbot this week.
 3. People **will** use robots to help with housework.
 4. My school is **going to** start using AI tools soon.

SPEAKING ACTIVITY

- **Task:** In pairs, students answer:
 1. What AI do you use daily?
 2. Do you trust AI recommendations?
 3. Could AI replace some jobs?

CONCLUSIONS

- AI is already here, making daily life easier and more connected.
- Vocabulary helps us describe and discuss technology.
- Grammar with will and going to allows us to talk about the future of AI.
- Students can now predict, plan, and share opinions about AI.

MEMORABLE ENDING

“AI in Your Pocket” Challenge:

Each student writes 1 sentence predicting the role of AI in their future (e.g., “AI will help me learn English faster.”). Share with the class.
